

Department of Microbiology and Physiological Systems (MaPS) Papers, 2010 - present (formerly Department of Physiology, 1968 – 2009)

A Finding Aid

Lamar Soutter Library, Office of Medical History and Archives
University of Massachusetts Medical School

Descriptive Summary

Repository: Lamar Soutter Library, Office of Medical History and Archives
University of Massachusetts Medical School

Identification: SC 15

Creator: Department of Physiology / Department of Microbiology and Physiological Systems

Title: Department of Microbiology and Physiological Systems (MaPS) Papers, [formerly
Department of Physiology]

Date(s): 1968-present (bulk 1968-2009)

Quantity: 19 record cartons, 2 photograph boxes, 1 box of artifacts and miscellaneous media.
Approximately 20 linear feet.

Abstract: The Department of Microbiology and Physiological Systems (MaPS) Papers documents the establishment of the Department of Physiology and chronicles its early history, development, and merger with the Department of Microbiology to form the Department of Microbiology and Physiological Systems (MaPS).

Access Restrictions: Access to most material in the collection is unrestricted. Access to personal information relating to the MaPS faculty is restricted for 10 years and thereafter is accessible by permission of the Archivist. Access to other restricted materials may be requested by completing a "Restricted Records Access Request" form.

Preferred Citation: The proper citation format for any item from this collection is:

The Department of Microbiology and Physiological Systems Papers, University of Massachusetts Medical School Archives, Lamar Soutter Library, University of Massachusetts Medical School, Worcester, Massachusetts.

Processing Information: This collection was processed by Dina Litvak in 2014/2015. The finding aid was completed by Dina Litvak and Kristine Sjostedt.

Biographical/Historical:

The Department of Physiology was established in 1970, the same year the University of Massachusetts Medical School (UMMS) opened. In the late winter of 1970, Dean Lamar Soutter recruited H. Maurice (Moe) Goodman, Ph.D. to head the Department of Physiology with the mandate to "*build a Department of Physiology second to none in New England*". The resources promised were quite modest: fourteen state funded positions and an office, laboratory, and teaching space in the medical sciences

building, construction of which was scheduled to begin in the summer of 1970. The amount of \$300,000, provided by the federal grant that underwrote construction of the building, supplied funds to outfit the research and teaching labs for the newly founded department.

The first class of sixteen medical students began their education in the fall of 1970. They and the next two incoming classes studied in the Shaw building, a renovated tobacco warehouse situated on the corner of Lake Avenue and Belmont Street near the current school building and hospital. With space for only 16 students and 2 faculty laboratories in Physiology, the budget initially provided salaries for only two junior faculty positions. Fredric (Fred) S. Fay, Ph.D. became the first recruited by Goodman to fill one of those available positions. At that time, Fay was a first year fellow in physiology at Harvard Medical School. Goodman met him for the first time in 1965 when Fay was a graduate student doing a laboratory rotation in Goodman's lab. Fay agreed to come to Worcester just for a few years to help Goodman get the department started, but stayed with the Department of Physiology for many more years until his unexpected death in 1997.¹ The remaining faculty position was shared between Joshua J. Singer, Ph.D. and John V. Walsh, M.D. Arrangements were made for Singer and Walsh to devote the first half of that salary to their research at Harvard and the second half to the teaching at UMMS. In 1971 they joined the Department of Physiology full time. Additional faculty joined the department over the next few years and include Peter Grigg, Ph.D., Peter Reed, Ph.D., (then Dean at Vanderbilt University) and James G. Dobson, Ph.D. The medical class was expanded to 24 students for the academic years 1971 and 1972, and with anticipation of moving into the new Medical Sciences building the following year, the class was expanded to 40. Once the move to the new building was completed, Joel Feinblatt, Ph.D. transferred to the department from the Department of Pharmacology. Susan Smith, Ph.D. was recruited from Emory Medical School. Another faculty member, Thomas W. Honeyman, Ph.D., who had come to Worcester in 1970 to finish his doctoral research in Goodman's laboratory, joined the faculty in 1974.

From the time the department was established until its merger with the Department of Molecular Genetics and Microbiology in 2010, thirty people had appointments at the professorial rank in the Department of Physiology, including several former members of the Worcester Foundation for Biomedical Research which merged with UMMS in 1997. Faculty provided instruction in medical physiology to more than 3,000 students and trained many postdoctoral fellows. They also served in leadership roles in professional societies and campus-wide administrative positions, and received more than 20 national and local research awards including the election of Susan Leeman, Ph.D. to the National Academy of Sciences.

In 2010 the Department of Physiology merged with the Department of Molecular Genetics and Microbiology into the new Department of Microbiology and Physiological Systems (MaPS).

Scope and Content: The bulk of this collection contains annual and scientific reports, correspondence, financial reports, grant applications, scientific publications (loose and bound volumes), and numerous photographs created by or about the Department of Physiology.

Series and Subseries in the Collection: The collection is arranged in twelve series, seven of which are further arranged in several subseries. The series and subseries in the collection are as follows:

Series 1: Miscellaneous correspondence

Series 2: Faculty

Subseries 1. H. Maurice Goodman

¹ Clapham, D.E. In Memoriam: Fredric S. Fay. *Neuron*, vol.18, 1997, p. 697.

Subseries 2. John V. Walsh

Subseries 3. Joshua J. Singer

Subseries 4. Thomas W. Honeyman

Subseries 5. Susan E. Leeman

Subseries 6. Jose Ramon Lemos

Subseries 7. James Gordon Dobson, Jr.

Subseries 8. John E. Mole

Subseries 9. Fredric Stewart Fay

Subseries 10. Peter Grigg

Subseries 11. Mark Furman

Subseries 12. Theo E. Meyer

Subseries 13. Alan W. Steel

Subseries 14. Miscellaneous

Subseries 15. Hiroshi Yamaguchi

Series 3: Events

Subseries 1. UMMS-WFBR merger

Subseries 2. Retreats

Subseries 3. Anniversaries

Subseries 4. Miscellaneous events

Series 4: Annual reports/Budget

Series 5: Department Accreditations and Reviews

Series 6: Grants

Subseries 1. Grant proposals

Subseries 2. Miscellaneous

Series 7: Research

Subseries 1. Miscellaneous

Subseries 2. Program in Molecular Medicine

Subseries 3. Core facilities and Equipment

Subseries 4. Research Data

Subseries 5. Publications

Series 8: Legal/Administrative

Subseries 1. Technology transfer

Subseries 2. Legal documents, Policies & Procedures

Subseries 3. Human resources

Subseries 4. Printing and Publication

Subseries 5. Miscellaneous

Series 9: Councils, Committees, Commissions

Subseries 1. Miscellaneous committees and groups

Subseries 2. Chancellor Search Committee

Subseries 3. UMMC Scientific Council

Series 10: Teaching

Subseries 1. Curriculums, handbooks, posters and medical school catalogs

Subseries 2. Course materials: Class of 1988

Subseries 3. Course materials: Class of 1989

Subseries 4. Course materials: Class of 1993

Subseries 5. Course materials: Class of 2002

Subseries 6. Course materials: Class of 2003

Subseries 7. Course materials: Class of 2004

Subseries 8. Course materials: Class of 2005

Subseries 9. Course materials: Class of 2006

Subseries 10. Course materials: Class of 2007

Subseries 11. Course materials: Class of 2008

Subseries 12. Course materials: Class of 2009

Subseries 13. Course materials: Class of 2010

Subseries 14. Course materials: Class of 2011

Subseries 15. Course materials: Class of 2012

Subseries 16. Conferences

Subseries 17. Research rotation projects

Subseries 18. Physiology course: Spring 1974

Subseries 19. Reports

Subseries 20. Basic Science Academic Evaluation Board

Series 11: Photographs and slides

Series 12: Artifacts and miscellaneous media

Series 1: Miscellaneous correspondence
