### Abstract:

*UMMC Voice*  
August 1981

The University of Massachusetts Medical School located in Worcester, Massachusetts was founded in 1962 and is the first and only public medical school in the Commonwealth of Massachusetts. Established to provide affordable, high-quality medical education to state residents and to increase the number of primary care physicians practicing in the state, the school comprises the School of Medicine, the Graduate School of Biomedical Sciences, and the Graduate School of Nursing. Its clinical partner, UMass Memorial Health Care, is the largest health care provider in central and western Massachusetts. This collection is composed of publications created by the University of Massachusetts Medical School, the University of Massachusetts Medical Center, and University of Massachusetts Memorial Health Care.

**Access Restrictions:** The collection is open for research use.

**Preferred Citation:** The proper citation format for any item from this collection is:

## Biographical / Historical:

The University of Massachusetts Medical School located in Worcester, Massachusetts, is part of the University of Massachusetts five campus system and comprises three schools: the School of Medicine, the Graduate School of Biomedical Sciences, and the Graduate School of Nursing. It is the first and only public medical school in the Commonwealth of Massachusetts and was established in 1962 as a way to meet a perceived shortage of physicians and as a means of providing an affordable medical education for its residents. Ground was broken for the school building in 1969 and the first class of sixteen medical students began attending classes in a building that formerly housed the H. E. Shaw Company. The clinical and basic sciences building opened in 1973 and in 1974 the first class of sixteen Medical Doctors graduated. The medical school's affiliated hospital, University Hospital, opened in 1976 and in 1977 the combined entity was dedicated as the University of

Massachusetts Medical Center. As the Commonwealth's first Level 1 Trauma Center, University Hospital also launched the region's first air ambulance service, New England Life Flight, in 1982.

In 1979 the school established a PhD program which developed into the Graduate School of Biomedical Sciences in 1986. The Graduate School of Nursing also opened in 1986 and in 1994 initiated a PhD program. In 1997, the Worcester Foundation for Biomedical Research, internationally recognized for its contributions to biology and medicine and for the discovery and development of the birth control pill, merged with the medical school. Also in 1997, control of Massachusetts Biologic Laboratories, the only non-profit, public, FDA-licensed manufacturer of vaccines and other biologic products in the United States, was transferred to the medical school. The following year, the clinical system of the University of Massachusetts Medical School merged with Memorial Health Care and formed UMass Memorial Health Care, the largest health care provider in Central and Western Massachusetts. UMass Memorial Foundation, the philanthropic entity of the institution, was also established in 1998.

In 1999 Commonwealth Medicine was established to bring independent research initiatives, training programs, and clinical services for the public sector together into one health care consulting division. The Eunice Kennedy Shriver Center for research, education, and service for people with developmental disabilities and their families, became part of UMass Medical School in 2001 and was designated one of its Centers of Excellence.

## **Scope and Content:**

The bulk of this collection consists of publications created by and for faculty and staff of the University of Massachusetts Medical School, the University of Massachusetts Medical Center, UMass Memorial Health Care, and UMass Memorial Foundation. Some publications are also for audiences outside the institution. Most of the publications were created internally by staff of the institution or its affiliates; however there are also publications that were created externally by the Commonwealth of Massachusetts. The publications include annual reports, newsletters and magazines, school and department catalogs, brochures, and pamphlets.

## **Series in the Collection:**

The collection is organized into three series according to type of publication. Titles within each series have been arranged alphabetically, topically, or chronologically depending on type of publication. The series of the collection are as follows:

Series I: Periodicals, Newsletters, Reports (Box 1- 3A)

Series II: Brochures, Pamphlets, Programs, Invitations (Box 4)

Series III: Catalogs, Student Handbooks, Directories, and Guides (Box 5 - 6)

### **Series I: Periodicals, Newsletters, Reports, 1976-2009 (Box 1 – 3A)**

*Scope and Content:* This series contains periodicals, newsletters, and reports created by and for employees of the University of Massachusetts Medical School, University Hospital, the University of Massachusetts Medical Center, UMass Memorial Health Care, and UMass Memorial Foundation as well as for external audiences. This series is arranged alphabetically by title of publication except where the title changed. In this case they are arranged chronologically.
